### Friends' Yearly Meeting.

This annual festival of the ancient and respectable Society of Friends brings with it reminiscences from which they, with others, may draw practical instruction.

This society, the child of persecution, grew and flourished under its oppression, until finally it overcame it. While being trained in the school of adversity its virtues became strong and unyielding—when crowned with triumph, and flattered and fondled by all other denominations, it has declined, and the waning of its power affords fearful evidence that even the members of this society are heirs to the common frailties of mankind.

The history of this denomination of christians is closely identified with the history of this State, and consequently, with the history of religious liberty. Their early persecutions were cheerfully shared by the other settlers of the State. "The United Colonies" admonished by letter the people of this colony, not to tolerate within their dominions the damnable heresy of Quakerism, because, they feared that its evil example might affect the morals of their children in the adjoining colonies. To this, Rhode Island calmly replied, that they then had it much at heart to establish within their territory entire religious liberty—that they had no law to punish that, or any other matter of religious concernment. The colonies said that if Rhode Island failed to listen to their admonition, they would see what further God would move them to do. Rhode Island replied that if the Quakers violated any of their laws, that they would see that the Quakers were punished, but that they humbly conceived that the civil State had no power to legislate as to matters appertaining to the Kingdom of Christ. That Jesus Christ was King in his own Kingdom, and that he had not delegated to men the power to govern that. Rhode Island complained to the King, Charles II., of the threats of the United Colonies; and while this controversy was pending, Plymouth was banishing its Quakers beyond Assonet towards Rhode Island.

These controversies were long and bitter, and the scourging of Holmes, and the death of Mary Dyer, with other acts of equal cruelty, will long remain in history as monuments of the sufferings of the early settlers; and the universal toleration of religious opinions in this country, affords an interesting commentary upon the folly of attempting to coerce the minds and consciences of men.

What thoughtful Friend will visit Newport this week, and not reflect that it was here those who held his ancestral faith came to worship, and, that here they did worship with none to molest or make them afraid? and who will not also reflect upon the changes which have since taken place. All are now free, and the Friends have acted well their part, in procuring this freedom, and they are still striving for the universal emancipation of men?

But their reflections are not all of gratulation. Their society, of which there is but here and there a member scattered over our State, like the pastoral oaks, once exerted a dominant influence among us, is now declining. Flattery, adulation, and internal dissension, are doing what adversity and persecution failed to accomplish. The simple and severe piety of the earlier Friends has yielded to the pride and fascinations of the world until we can scarcely recognise, in many of their denomination, the distinguishing marks set up between them and other societies.

If their present condition would prompt them to settle their differences, and inspire in them a more fervent devotion to the simple principles of virtue so vividly adhered to by their fathers this annual meeting would result in a lasting benefit, not only to that society but to the whole country; for the evil consequences of their discautions and decline are incalculable.

---

☞ In Stamford, Conn., a few days since, two young ladies were sewing by the light of a fluid lamp, when it burst, and one of them was so badly burned that she lived but thirty hours after the accident. There is no safety in the use of burning fluid, as it is always, when burning, liable to explosion. Kerosene oil is an excellent substitute, being a better and cheaper article, and perfectly safe.

---

A letter from South Florida says that a strange and fatal disease has broken out among the deer in that section, which are found dead in every direction. They appear to die, in most instances, suddenly—full fleshed and fat. Some appear to linger with the disease, and are found to have sore or rotten mouth or tongue. The cattle are also similarly affected, but not so fatally. What is still more strange, the buzzards and carrion crows have also disappeared.

## LOCAL NEWS.

THE MERCURY.—This venerable weekly made its appearance Saturday morning in an entire new dress. The *Mercury* looks well, though not so well as we expected to see it. The vignette in the head, for instance, which is the official seal of Newport, is brought out very poorly and seems to represent no particular thing whatever. The "o'dest inhabitant" would hardly recognize in it a sketch of our old ocean town. This defect, however, will doubtless be remedied in future numbers of the paper.

Accompanying this issue of the Mercury, is a re-print of the issue of December, 19, 1758, in which the size, quality of paper style of types, &c., are as far as possible retained. The paper is a curiosity, both in style of execution and as representing the business location, ways and manners of those who peopled Newport at that period. The paper, Vol. I, No. 27, was "printed by James Franklin, at the Printing Office under the Town-School." Copies of this specimen of antiquity are for sale at the Mercury Office, price 4 cents.

---

BASE SACRILEGE.—As it is difficult getting water for irrigating purposes at the Cemetery in this city, Captain Jesse Chace, with much credit to himself, placed a large cask there, which, in dry seasons, he has been in the habit of filling by having water carted for the purpose. This was a great public benefit, and was highly appreciated. Last Friday the cask was discovered to be missing, some one having clandestinely taken it away. We hardly know what to say of the individual who would be guilty of an act so mean as this, and we cannot find words to express our utter scorn and detestation both of the man and the deed. He would rob the dead and sell their shroud to the rag merchant, and would sell the body of his nearest friend for dissecting purposes. We hope measures will be taken by the police to insure his detection and that he will receive a punishment that will teach him law and common decency.

P. S. We have learned since the above was in type, that the Trustees of these grounds have decided to sink a well on the premises, and that the work will be commenced forthwith.

---

A MISCONSTRUCTION.—We find that our article a few days since respecting the age of the *Mercury*, has been misunderstood by some persons, and lest we should do our neighbors an injury, which we certainly did not intend, we cheerfully correct it. We observed that the record of issues of the paper on its first page show that it was in its ninety-seventh volume, and that the number also confirmed this fact; but did not mean by this to assert that the paper was not 100 years old, for we were well aware of the fact that it was, and only averted to the disparity between the real age and the record, to show a printer's mistake, which was afterwards fully explained in Mr. Mason's editorial of Saturday.

---

KIRBY'S AMERICAN HARVESTER.—We have inspected, in our "official capacity," one of these labor saving machines, at the Agricultural and Horticultural store of Mr. John Sterne, No. 14 Washington Square.

This Machine was invented by Mr. William A. Kirby, and patented by him in the Spring of 1857, and two hundred of the Machines were sold during the season. It is made entirely of iron except the seat and pole, and yet it is the lightest machine in use, and must prove, we think, superior in every particular, to any other ever invented for a similar purpose. The rider's seat is very easy, and his position the most convenient possible, for raking off the grain, while the gearing is of the very simplest order, the whole combining simplicity of construction, strength and durability in the highest degree. Those interested in Agricultural matters would do well to give this reaping and mowing machine a personal inspection, which they can at any time do at the store of Mr. Sterne.

---

A NORTH EASTER.—Saturday was ushered in with a cold, drizzling North Easter, rendering shawls, overcoats and coal fires necessary in order to keep comfortable. It was rather an unpleasant commencement for the Friends visiting our city to attend the Yearly Meeting. It's an ill wind, however, that blows nobody good, and we presume the fleet of coasters in our harbor hailed it as a god-send, for they up anchors and away at the first dawning. Some of them had been imprisoned here since Tuesday.

---

☞ We are indebted to Hon. Isaac I. Stevens of Washington Territory, for copies of his speeches in the House of Representatives, May 25 and 31, on the Pacific Railroad and the Washington and Oregon War Claims.

---

Postmaster Fowler of New York has placed on duty a lady to attend the window at the ladies' delivery. We would not object to Postmaster Atkinson placing a *very handsome* lady at the *gentlemen's* window at our own Post Office.

---

☞ The flag of Aquidneck Engine Company, No. 3, was hoisted half-mast, yesterday, in consequence of the death of one of its members, Mr. Peckham, of the firm of Swinburne, Peckham & Co.

THE FRIENDS' MEETING.—The attendance yesterday morning was very thin compared to former years, doubtless owing to the unpropitious state of the weather. In the afternoon the house was better filled.—The meetings were conducted with the usual interest.

---

☞ There were less strangers in town yesterday than if the weather had been less cold and unpromising in the morning. The Steamer Perry landed something over a hundred from Providence, and the New Clifton thirty or forty from Fall River.

---

☞ Steamer Metropolis arrived here at 12 o'clock yesterday noon, having anchored in Cow Bay, which place she left about 3 o'clock yesterday morning. She brought 56 passengers to this city, and a large quantity of freight.

---

☞ The amount of rain that has fallen since Friday night must be several inches as it rained through the whole of Friday night, Saturday and Saturday night. It is extremely favorable for grass, which now only needs a warm sun to bring it forward finely and give the husbandman an abundant crop.

---

OUR HOTELS.—The inclemency and backwardness of the season has undoubtedly prevented us from having as many "friends" as usual in the city, at their "yearly meeting." We visited the various Hotels yesterday, and find that the Belle Vue is honored by far the most company.

---

SOME OF THE LUXURIES.—We received on Saturday, from Mr. H. H. Young, Parade corner, two boxes of fine large Strawberries, for which he will please accept our thanks. Our readers will please bear in mind that Mr. Y.'s store is A No. 1, in the fruit line.

---

SHAVEN AND SHORN.—Mowers have been at work with sharp scythes cropping the grass on the Parade, front of the State House, which is now as bright, smooth and soft as a new Brussels carpet.

---

☞ Steamer Bay State, from N. York, landed about 35 or 40 passengers here Saturday morning.

## CORRESPONDENCE.

WASHINGTON, Thursday, June 10.

The war cloud, then, seems to be blowing over. The "first blood" over which so many credulous editors howled so fiercely, turns out, on analysis, to be nothing but printers' ink. Yankee tars are found who acknowledge the utmost civility on the part of Spanish and British Naval Officers; and even belligerant Senators have cooled down, and express confidence that the British Cabinet will be ready to do the handsome thing. Of course they will. Have not British diplomatists and jurists, in their intercourse with other nations, quite recently established and recognized the very same principles of maritime law for which we contend? And what earthly object could Great Britain have at the present time in adopting a policy towards the United States, which she must have the intelligence to know would be an unmistakable war policy? How can any man believe that Great Britain, under her modern relations to and understanding with the United States, would deliberately and positively instruct her naval officers to forcibly board and search American vessels, which would of course be universally recognized as not only a declaration of war, but a commencement of hostilities? It becomes American Statesmen, and American Journalists, (who should feel not less dignified, or less influential), before berating their peers for the alleged acts of inferiors, to calmly and courteously communicate with the former, and hear their sentiments on the subject.—It would be but doing as they would wish to be done by. President Buchanan and Secretary Cass have set an example in this respect that it would be well for Congressmen and editors to pattern after, if they have not enough original intelligence and dignity for their guidance in such matters.

Sirius rages! The dog-days are upon us! Man and beast shrink from the scorching sun, and seek the breezy shade; the lords of creation sport masculine parasols; and the red morocco cushions of the House Hall have given way to the cane "ventilators." Congressmen have sent their wives and daughters to their cool rural homes, and are longing to follow suit. Before you get this you will probably have heard by telegraph of the session being extended until Monday the 14th inst., not longer.

At least two of the laws passed by the late California Legislature, are considered, here, contrary to the Constitution and National policy of the United States. That levying a state tax on bills of lading for shipments of gold dust, &c., is considered to be in conflict with the following clause of the U. S. Constitution: "No Tax or duty shall be laid on articles exported from one State to another." That prohibiting the immigration of Chinese into the State, is held to be in direct and palpable conflict with the natural policy and practice of the General Government. In fact, the movement is decidedly ludicrous. Even while we have a national fleet at the Chinese ports negotiating social and commercial intercourse with the people of that Empire, one of our States gets the big-head among its mighty legislators and passes a law prohibiting the immigration of the celestials to our shores. It would look just as well, and be quite as proper for South Carolina, or Rhode Island, or any other State to pass a law prohibiting the immigration of Irish, English, and Dutch to the country. It is generally supposed that Uncle Sam has the management of our foreign intercourse.

The report that President Buchanan intends to make a western tour this summer, is unfounded. Soon after the adjournment of Congress he intends to take up his summer residence on the Bluff a mile or two north of the city, which is probably the farthest he will get from the White House during the season, unless he slips up to Wheatland a few days, or down to one of the old Virginia Springs. The Heads of the Departments all intend to sweat out the season at their posts, having mostly sent their families to their country homes. Some of the foreign ministers residing here intend to tour it some through the country during the summer to learn something more of America and American Sovereigns—among them Lord Napier and M. Sartiges. One of the most interesting features of Washington life is the representation here of foreign nations. In the ministers of foreign countries, and their families, we have specimens not only of the men, women, and children of the respective countries, but in a great measure, of their dress, manners, customs, intelligence, cultivation, personal habits, &c., &c. SPECTATOR.

## DIED.

In this city, during the night of the 12th inst., Mr. Edward S. Peckham, son of Job A. and Elizabeth Peckham, aged 22 yrs. 7 mos. and 3 days.

We record no memorited tribute to the memory of the deceased, when we say that he has sustained through life an exemplary character, which with his modest and retiring manners, and his affable intercourse with society has endeared him to many friends.

When a person of mature age is called back to that state from whence he sprang, we feel that he has enjoyed the term allotted to man, but when youth with all the hopes, and promises of life and happiness and usefulness is suddenly called home to his Creator, we pause and wonder; deriving consolation only from the knowledge that it is the work of Providence,

"Who doeth all things well."

In this city, Saturday evening, 12th inst., Mary, daughter of William H. and Mary E. Bliss, aged 11 months and 16 days.

Funeral this afternoon at 2 o'clock, from 117 Thames street. Relatives and friends are invited to attend without further notice.

PROF. O. J. WOOD & CO.—Gentlemen: In a few days we have received [illegible] orders and calls for Prof. O. J. Wood's Hair Restorative, that to day we were compelled to send to Boston for a quantity, (the fifteen you forwarded all being sold,) while we might have sold scores to have produced the effect we have now customers; and the approbation and patronage it receives from the most substantial and worthy citizens of our vicinity, fully convince us that it is a most valuable preparation.

Send us a dozen as may be one gross of $1 size; and one dozen $2 size; and believe us yours very respectfully,
(signed) DANIEL LATHOEP & Co.

Hickory Grove, St. Charles Co., Mo., Nov. 19, 1855.
PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effect were so wonderful, we feel it our duty to you and the afflicted, to report it.

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came out in consequence, when a friend, seeing it [illegible] ordering, advised us to use your Restorative, we did so with little hope of success, but, to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can therefore, and do hereby recommend your Restorative, as a perfect remedy for scaldy cases of the scalp and hair.

We are, yours respectfully,

SARAH A. HIGGINBOTHAM.

Gardiner, Maine, June 25, 1855.
PROF. O. J. WOOD—Dear Sir: I have used two bottles of Professor Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it I was a man of seventy. My hair is now restored to its original color. You can recommend it to the world without the least fear, as in my case was one of the worst kind.

Yours respectfully,
DANIEL N. MURPHY.

## MEDICINES.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known.—Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with Bilious complaint; see his head up, tottering form straighten with strength again; see his long lost appetite return; see his clammy features bloom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him.

Have you the less serious symptoms of these distempers, they are the easier cured, Jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must burrow in the hules and in old—they must burrow in the holes and in the sea. Price 25 cents per box—5 boxes for $1

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also, the wonderful cures effected by Swaim's Panacea have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1,50 per bottle, (containing three half pints) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA."

and having the name of JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork, and a new label on the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea," are engraved conspicuously on two turned strips, and a large semi-circular die forms the upper margin. The borders are composed of plain lathe work strips, outside of which is engraved, in small letters, the entry of the copyright.

Also, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, AT THE OLD STAND, Seventh street, below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

*CAUTION TO THE PUBLIC.*

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name

is spelled correctly on the bottle and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

A CARD TO THE LADIES.

DR. DUPONCO'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerful in effecting in correcting regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many other that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise fro n the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames street, corner Churchst eet, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. Ladies by enclosing $1 to *STURGIS & CO.*, Box 801, Newport Post Office, can have the Pills sent confidentially) by mail to any part of the city or country. a29—

## MEDICINES.

HOWARD ASSOCIATION
PHILADELPHIA.

*A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.*

TO all persons afflicted with Sexual Disease, such as Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the Vice of Onanism, or Self-Abuse, &c. &c.

The Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a Charitable Act worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their form and to give Medical Advice Gratis, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to Furnish Medicines Free of Charge. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved means free of cost.

The Directors, in a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important but much neglected cause.

Just published, by the Association, a Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, Dr. George R. Calhoun, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.

DR. DOW'S
GRAND MEDICAL HOUSE
AND OFFICE,
NO. 7. ENDICOTT-ST., BOSTON. NO. 7.
Established for the permanent cure of all Private Diseases and the Suppression of Quackery.

DR. DOW, so well known for the last fifteen years in this city, where he has confined his practice to the treatment of mercurial, syphilitic and other diseases of a private nature, is consulted above, from nine in the morning till seven in the evening. Patients must call during other hours. Office not open on Sundays.

All chronic and difficult cases, such as have existed for years, are completely and permanently cured in the shortest possible time by the Doctor's improved course of treatment.

MEDICAL ADVICE.—As it is always important to obtain the services of an experienced and skillful physician call on the celebrated Dr. Dow, No. 7, Endicott street.—*Med. and Surg. Jour.*

DR. DOW will say nothing of his qualifications as a Physician and Surgeon, being a graduate of the University of Pennsylvania, Licentiate of the State Medical Society of N. Y., and for more than twelve years a practitioner of this city, during which time he has no doubt cured more of those difficult and chronic cases (such as nothing but practical experience can ensure success) than by other physicians in Boston.

By his late improved course of practice, Gonorrhœa, Gleet, Strictures, and other local affections of the urinary and seminal organs, are cured in a very few days without mercury, regard to diet, or fear of exposure.

SECONDARY SYPHILIS, &c.

Scrofulous affections, ulcers in the throat or neck, nodes and caries of the bones, eruptions on the skin, and every impurity of the blood thoroughly and completely eradicated. Persons afflicted with any private complaints should call as early as possible after contracting the disease, as much time and money may be saved thereby.

TO YOUNG MEN.—You who are troubled with seminal weakness, generally caused by a bad habit in youth, the effects of which are nocturnal emissions, pains and dizziness in the head, forgetfulness, sometimes a ringing in the ears, weak eyes, &c., terminating in consumption or insanity, if neglected, are speedily and permanently cured by Dr. Dow.

TO MIDDLE-AGED OR EVEN OLD MEN, whose procreative organs have become inactive or weakened by the excesses of any kind, but especially bad habits in youth, Dr. DOW would respectfully say that from the extensive practice which he has had in treating the above complaints for over fourteen years, he is enabled to guarantee a perfect cure in all cases; that is, a restoration of those organs to their natural and healthy state. Hardly a day passes that he is not called upon to cure the above complaints, and he is happy to say that his course of treatment has invariably effected a speedy cure.

Beware of all kinds of Exhilerating Cordials, as they are of no use.

To the unhealthy, the mere mention of the name of the far-famed and skilful physician, Dr. Dow, that he cannot be found at home that he is surpassed by none in curing all forms of disease however protracted, ill-treated, or mercurially affected, is a consolation to his patients, and an honor to himself.—*Balt. Amer.*

All afflicted with private complaints, if possible, should consult Dr. Dow, whose medical education is not surpassed by any physician in the country. In his skill, honor and integrity, all may rely with safety, while most all of the medical practitioners are without honesty or responsibility, their pretensions being engrafted in ignorance and assumption.—*Republican Argus.*

There are a great many young men whose cases have become very difficult of cure, either from neglect or ill-treatment. We would advise all such to call on Dr. Dow, of Boston, whose practical experience in certain diseases no doubt exceeds that of any other physician in America.—*Journal of Health.*

Dr. Dow consults with physicians, as usual, on difficult chronic diseases. Charges reasonable.

TO FEMALES.

All diseases peculiar to females, such as suppressions, irregularities, &c., speedily and effectually removed. The efficacy of his remedies for the cure of the above affections, has been well tested in his extensive practice for the last fifteen years in this city, and never was known to fail in effecting a cure where the directions were followed a reasonable time.

The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life and vigor, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body. J. RUSSELL SPALDING'S

Combines everything required to give richness, beauty and elegance to the hair. It removes dandruff, and relieves headache. To force the growth, to prevent falling off, and restore hair to bald places, it has been used with positive success. It is presented to the public in an open, candid manner, stating, as the name indicates, the leading ingredients, viz:—

Rosemary and Castor Oil,
both common and well known articles.

The following persons can be found, and are well known. We give a few extracts from their opinions about the

# ROSEMARY.

ABRAM A. TEVAN, Esq., Rotterdam, N. Y., writes—"Am 75 years of age, and was bald 35 years; have used two bottles of your Rosemary, and my hair is now two inches long."

REV. SYLVANUS COBB, Boston Mass.—"We had rather pay for it than have other preparations for nothing," &c.

MRS. D. TAFT, Cambridge, Mass.—"Have used your Rosemary with great success in keeping my hair black, as age was turning it fast."

MR. DANIEL B. CONNOR, Boston, Mass.—"Eight months ago I was bald—my hair is now long and healthy—I know your Rosemary has forced it to grow," &c.

OSSIAN E. DODGE, Esq., Vocalist, now of Cleveland, Ohio—"It gives a rapid growth and dark glossy texture, and does not soil the hat or pillow in the least; I know of nothing so valuable for the hair."

FRANCIS ADAMS, Esq., Boston, Mass.—"It is the best thing for children's hair—the ladies are delighted with it," &c.

REV. C. W. DENISON, Buffalo, N. Y.—"I find it excellent for the hair."

MRS. I. SWEENY, Boston, Mass.—"It restored my hair to bald head, and from grey to black color," &c.

HON. C. RUNT, Lowell, Mass.—"To remove dandruff, and keep the hair moist and glossy, we have never found anything so good."

M. HOFFMAN, Esq., (Editor of German Weekly,) Boston, Mass., and his wife Eva, say—"It causes hair to grow vigorously—gives beauty and splendor—is better than European articles," &c.

C. B. STOCKING, Esq. (Trinity College,) Hartford, Ct.—"By using it my hair turned from a sandy to a brown color; it was naturally dry, but is now moist."

A. F. WHOD, Chemist, New Haven, Conn.—"I saw a fair head of very dark hair on a man that six weeks ago was bald. He had used nothi g but your Rosemary." &c.

REVERE HOUSE, Boston, July, 1857. "I had no more hair on my head than an infant, seven months ago. It is now thick, healthy, growing rapidly, and of a fine, dark color. I can positively say that J. RUSSELL SPALDING'S Rosemary, obtained at 27 Tremont street, opposite the Museum, has produced this change."—SARAH J. LORD.

LOTTERIES.—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner.—They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme on ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are up n the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mistify the buyer. Prizes vary from $40 to $60,000; every prize drawn and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount of the prize that each one is entitled to, will be published after every drawing, in the following papers:—Augusta (Geo.) Constitutionalist, New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, New York Weekly Day Book, Savannah Morning News, Richmond Dispatch, New York Dispatch and Paulding (Miss.) Clarion.

LOTTERIES.—The well known Maryland Consolidated Lotteries, of which R. FRANCE & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1.00 to $20.—No tickets however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to 1000,00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address
